

What you May bring

You are welcome to bring something from home such as small light blanket that has a familiar smell on it. You are welcome to bring your dogs own pet bed, but although in most cases we do, we will not guarantee to attempt to launder it. We prefer to use our own in the even that your pooch may decide to use it as a toilet if he or she is confused with their new surroundings Dogs are renowned for doing strange things to their possessions that they would not ordinarily do at home.

Treats:

You are welcome to bring any treats for your pets, such as raw hide bones or pigs ears. Please, no fresh bones. Watch out for our TREAT SHOP coming soon!

What NOT to bring

Keeping track of possessions is sometimes difficult especially as we mover our pooches between kennels and play areas and even incompatible neighbors. Bags of toys in particular are difficult to take care of as they are not easily named, and as we have so many of our own sometimes they get mixed up and misplaced. Owners are always disappointed when things are missing/soiled/damaged. Most dogs tend to ignore what they might usually play with until they settle in, and then they are quite happy to play with our toys instead!! We much prefer to spend ALL our time pampering you pet than looking for misplaced possessions.
